

SUBTRACTING FRACTIONS - MAZE

ANSWERS

Little Froggy already picked out his favorite egg, but Mr. Bunny accidentally placed it with all the other eggs in his garden. Use the problems below to help Mr. Bunny find Little Froggy's egg. *Make sure your answers are in simplest form*

Move Mr. Bunny the number of spaces per each answer in the given direction.

- | | |
|---|---|
| <p>1. $\frac{3}{5} - \frac{3}{10} = \frac{3}{10}$ spaces east
 HELPFUL EXAMPLE</p> <p>2. $\frac{2}{3} - \frac{2}{5} = \frac{4}{15}$ spaces north</p> <p>3. $\frac{1}{2} - \frac{3}{7} = \frac{1}{14}$ spaces east</p> <p>4. $\frac{3}{4} - \frac{5}{16} = \frac{7}{16}$ spaces west</p> <p>5. $\frac{6}{13} - \frac{1}{3} = \frac{5}{39}$ spaces south</p> <p>6. $\frac{2}{3} - \frac{3}{8} = \frac{7}{24}$ spaces east</p> | <p>7. $\frac{5}{6} - \frac{1}{3} = \frac{1}{2}$ spaces south</p> <p>8. $\frac{9}{10} - \frac{3}{4} = \frac{3}{20}$ spaces west</p> <p>9. $\frac{4}{7} - \frac{2}{5} = \frac{6}{35}$ spaces north</p> <p>10. $\frac{5}{8} - \frac{5}{12} = \frac{5}{24}$ spaces west</p> <p>11. $\frac{1}{6} - \frac{1}{9} = \frac{1}{18}$ spaces south</p> <p>12. $\frac{3}{4} - \frac{9}{14} = \frac{3}{28}$ spaces east</p> |
