

Venn Diagram

1) You have two sets of numbers. Set A include all numbers between 20 and 32 and set B includes all the whole numbers from 25 to 33. If you draw a Venn diagram, what numbers will be in the intersection? The set of numbers they have in common.

2) Tom and Jerry both live on farms. Tom has dogs, cows, horses, sheeps, cats and a pet rabbit. Jerry has horses, fish, pigs, dogs and parrots.

3) A class was asked which subject they liked, Maths or Science. 17 of the students liked Maths, 19 liked Science. 11 of them liked both Maths and Science. 4 of the students do not like either of them. How many students are in the class.
