

# Introduction to Area

## Concept

Area is the number of square units inside a flat surface or shape.

To find the area you need to find the number of square inside the shape

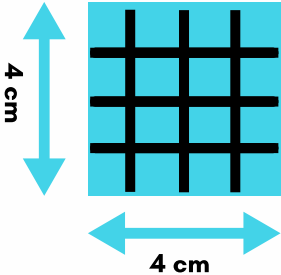

Be careful sometimes square are cut into pieces.

## Example

Area= Base x Height

Area = 4 x 4

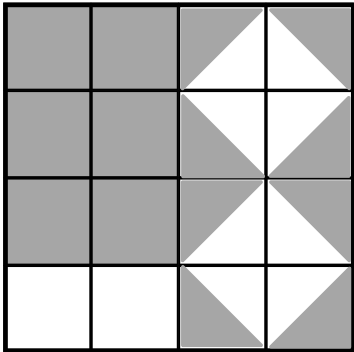

Area = 4x4 = 16cm<sup>2</sup>

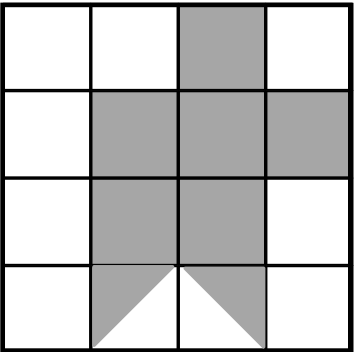

If you count all the square You will get "16"

## Assignment

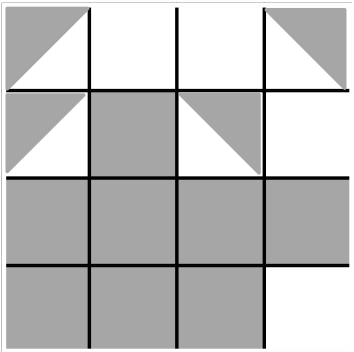

Calculate the shaded area.
