

# MAP SCALING

Cut out the ruler below. Use the ruler and the map scale to find the approximate distance between homes, shops, park, playground and buildings.

1. How far is it from the school to the library? \_\_\_\_\_
2. How far is it from my home to the school? \_\_\_\_\_
3. How far is it from the hospital to the church, then from the church to the bank? \_\_\_\_\_
4. How far is it from the post office to Lora's home? \_\_\_\_\_
5. Which is shorter going from Ben's house to park or Lora's house to park? \_\_\_\_\_
7. If Lora go by Ben's house, how far is it from Lora's house to school? \_\_\_\_\_
