

COMMUTATIVE PROPERTY - A

ORDER DOES NOT MATTER

ANSWERS

WHEN YOU ARE ONLY ADDING, YOU CAN MOVE THE NUMBERS AROUND AND STILL GET THE SAME ANSWER.

$$1. \quad \begin{array}{r} 7 \\ + \\ 4 \end{array} = \underline{\underline{11}}$$
$$4 \\ + \\ 7 = \underline{\underline{11}}$$

$$2. \quad \begin{array}{r} 5 \\ + \\ 22 \end{array} = \underline{\underline{27}}$$
$$22 \\ + \\ 5 = \underline{\underline{27}}$$

IT DOESN'T MATTER WHICH NUMBER YOU PUT FIRST.

YOU CAN SWITCH THE NUMBERS AROUND TO MAKE IT EASIER FOR YOU.

ADD.
